

Grace College Internal COVID-19 Data

Compiled by Dr. Ryan Johnson using contact tracing data from Laura Green and Nicole Gibson, as well as testing data from the state of Indiana.

Last updated Wednesday, August 25, 2021, at 03:02PM

Notes and Irregularities:

- This report counts all cases after 8/14/2021 as fall semester.

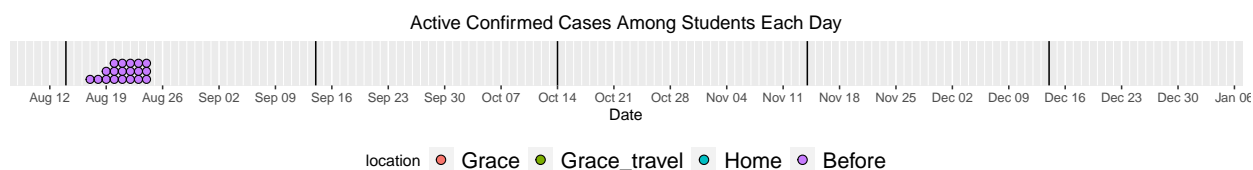

Cases

Confirmed Cases Among Students

Grace College required students to test negative before arriving on campus, and those that tested positive before coming are listed in the column **Before**. These are not counted in our total, since they never set foot on campus.

Table 1: Student Cases

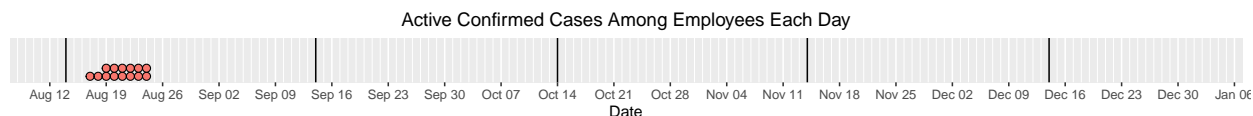

Type	Total	Home	Grace	Before
Active on Tue Aug 24	0	0	0	3
Fall Semester Total	0	0	0	3
Total of Last Two Years	170	125	45	20

Confirmed Cases Among Employees

Table 2: Employee Cases

Type	Cases
Active on Tue Aug 24	2
Fall Semester Total	2
Total of Last Two Years	54

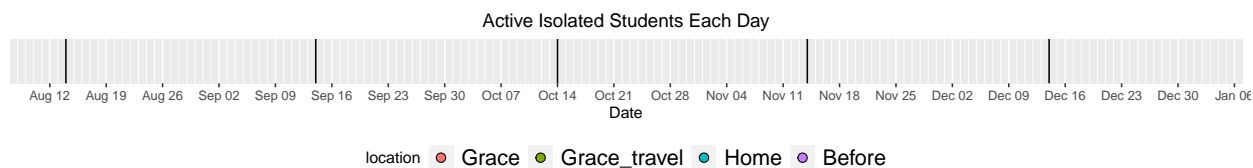

Isolated

Grace College required students to test negative before arriving on campus, and those that tested positive before coming are listed in the column **Before**. These are not counted in our total, since they never set foot on campus.

Isolated Students

Table 3: Student Isolations

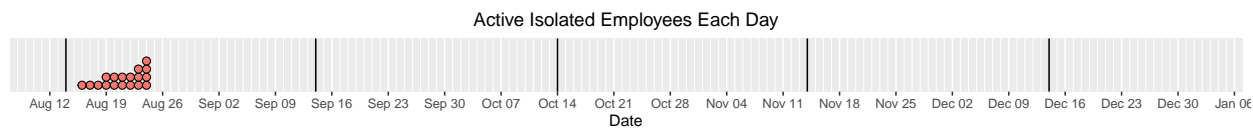

Type	Total	Home	Grace
Active on Tue Aug 24	0	0	0
Fall Semester Total	0	0	0
Total of Last Two Years	278	207	71
Total Unique Students	259	190	69

Isolated Employees

Table 4: Employee Isolations

Type	Isolated
Active on Tue Aug 24	4
Fall Semester Total	4
Total of Last Two Years	94

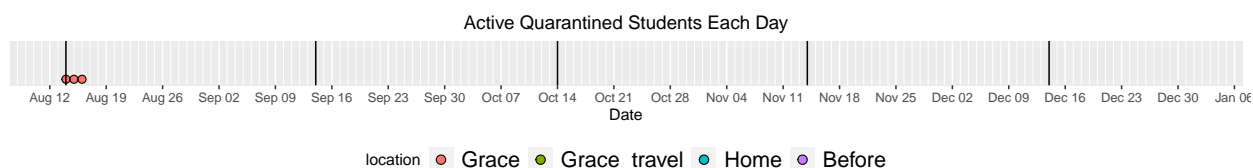

Quarantined

Quarantined Students

In the table below, **Grace_travel** are quarentines from international travel, and are not counted among the category **Grace** or the category **Total**. Neither are they graphed below. This is because these quarantines are from international travel, not exposure to COVID-19.

Table 5: Student Quarantines

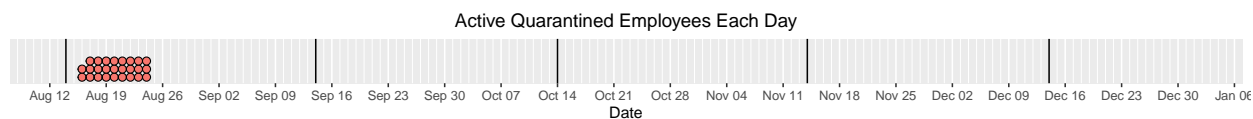

Type	Total	Home	Grace
Active on Tue Aug 24	0	0	0
Fall Semester Total	1	0	1
Total of Last Two Years	551	442	109
Total Unique Students	476	371	105

Quarantined Employees

Table 6: Employee Quarantines

Type	Quarantine
Active on Tue Aug 24	3
Fall Semester Total	3
Total of Last Two Years	77

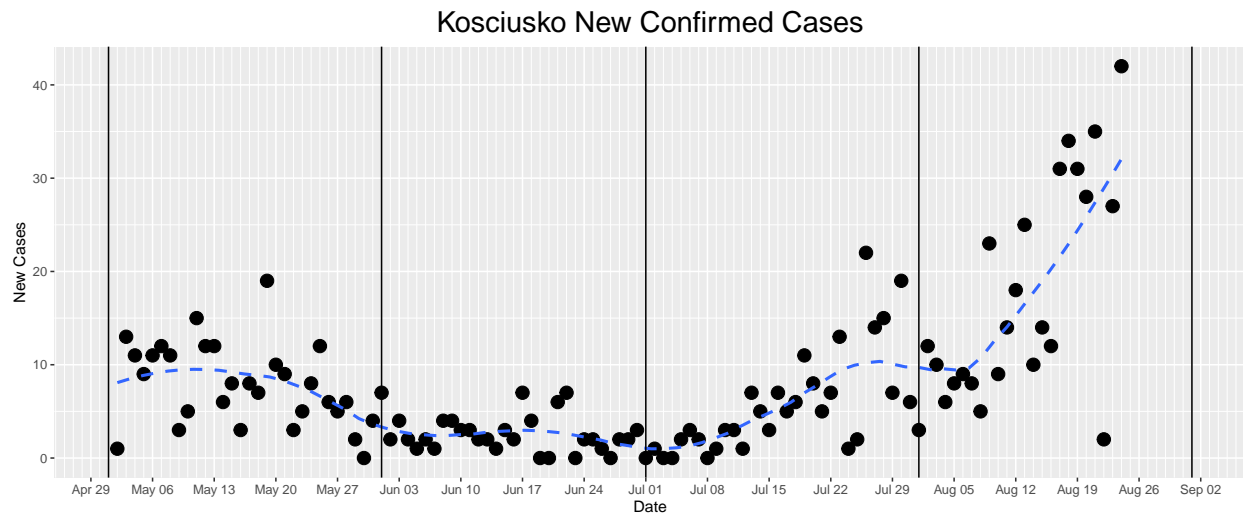

Kosciusko County

Kosciusko County has had

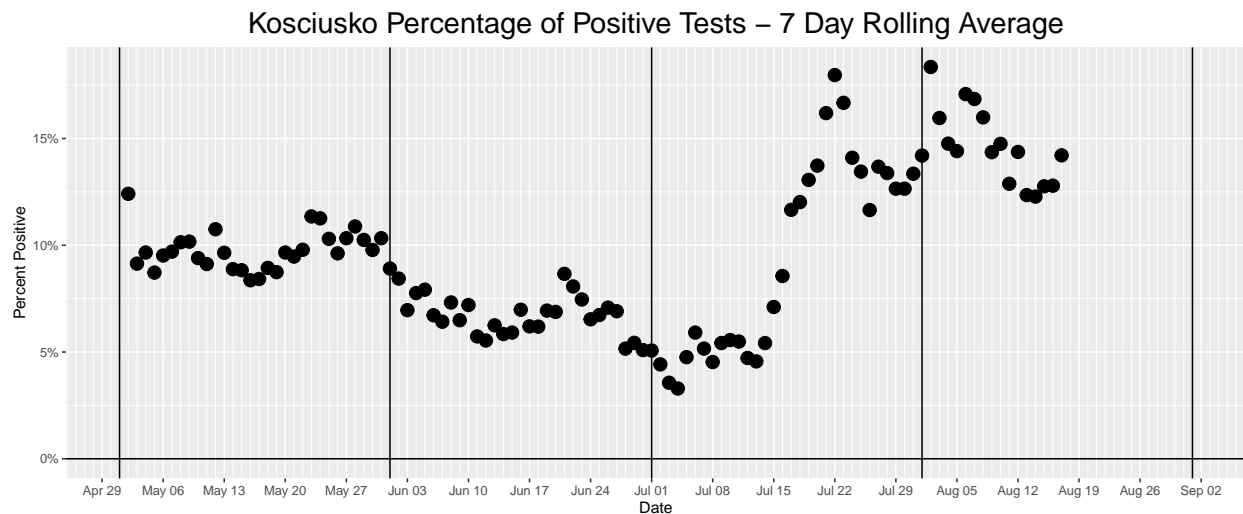

- 28 cases per day the past week.
- 910 total confirmed cases.

Cases - Kosciusko

Positivity - Kosciusko

Kosciusko County has had 14.21% 7-day positivity rate for unique individuals as of August 17.

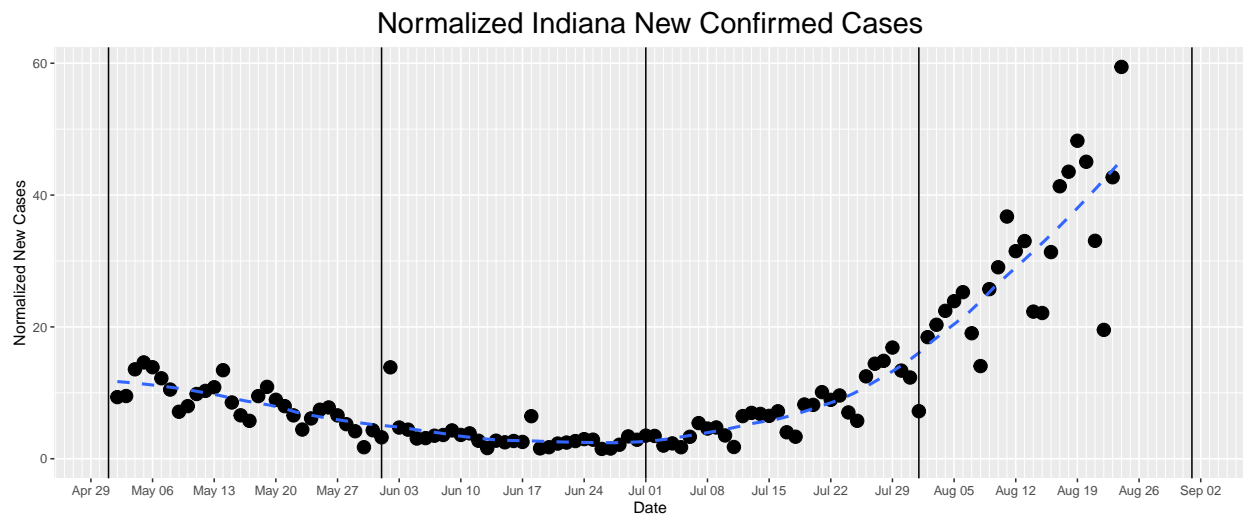

Indiana

The total case numbers below are multiplied by $\frac{\text{Kos pop}}{\text{Ind pop}} = \frac{79456}{6732000} = 0.01180273$, so that it is easier to compare Kosciusko numbers to the average Indiana county.

Indiana has had

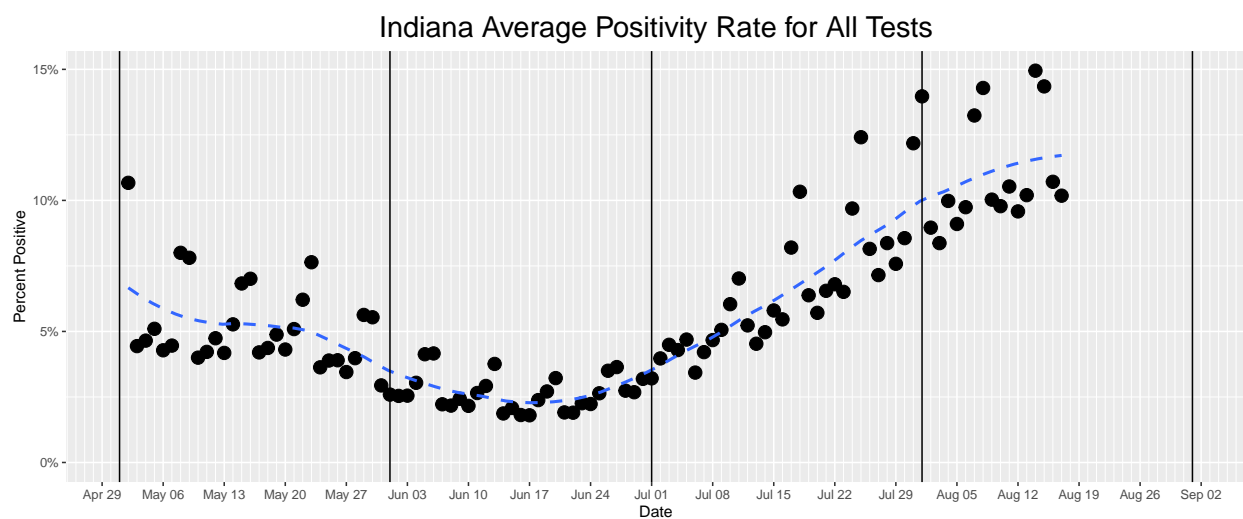

- 3529.1 cases per day the past week (normalized 41.7).
- 109,423 total confirmed cases (normalized 1291.5).

Cases - Indiana

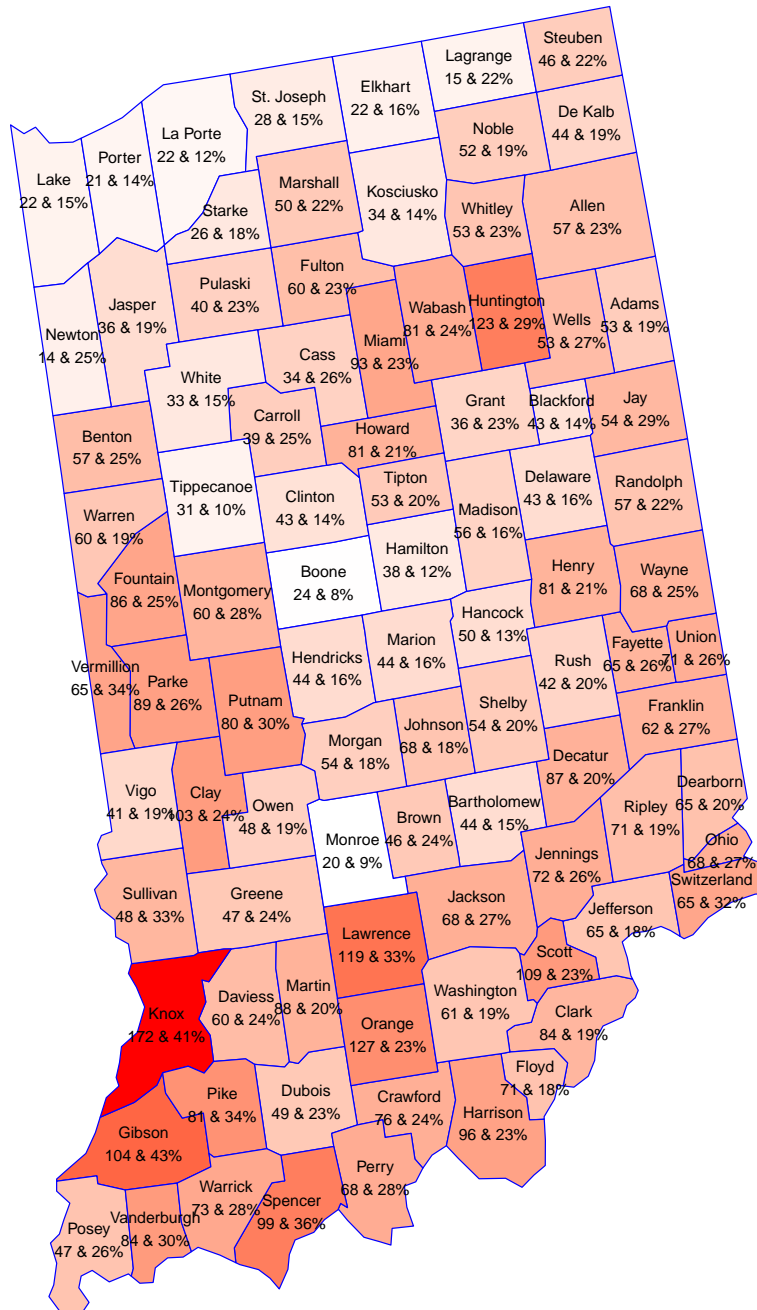

Positivity - Indiana

Indiana reports a 10.2% 7-day positivity rate for all tests as of August 17.

Indiana Map

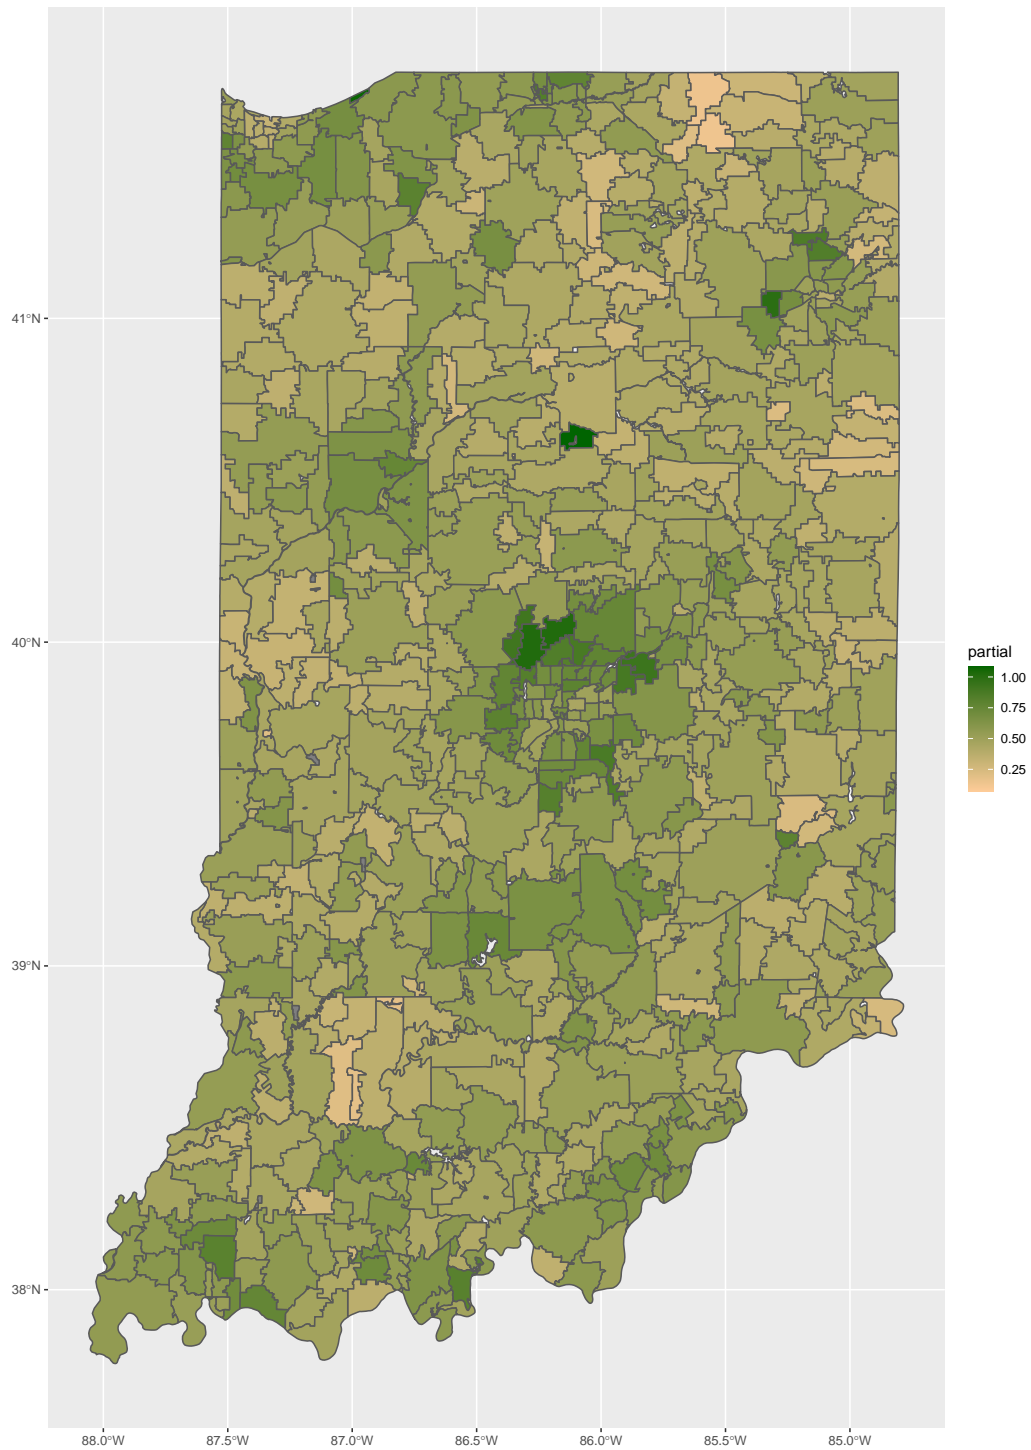

The map below displays the cases per 100,000 per day averaged over the past week and the positivity rate for unique individuals averaged over the previous week. The coloring scheme is relative, it colors the best county white and the worst county red.

Vaccines

Statewide vaccine percentages

The following map shows percentages of adults who have had at least one vaccine shot. Percentages are based on population census data from 10-11 years ago.

Regional vaccine percentages

The following map shows percentages of adults who have had at least one vaccine shot. Percentages are based on population census data from 10-11 years ago.

The region below extends from Plymouth (46563) in the West to Columbia City (46725) in the East.
