

## Grace College Internal COVID-19 Data

Compiled by Dr. Ryan Johnson using contact tracing data from Laura Green and Nicole Gibson, as well as testing data from the state of Indiana.

Last updated Monday, November 29, 2021, at 06:49AM

### Notes and Irregularities:

- This report counts all cases that began after 8/14/2021 as fall semester.
- $\bullet$  On 8/27/2021 an error was corrected regarding the total cases for Kosciusko County and Indiana. Those totals had previously only counted the last three months.
- On 11/5/2021 a new method for determining the end date for employee quarantines and isolations was implemented. Several employees who had been quarantined were never marked with and end date. We now count any quarantined employee without an end date to be complete after two weeks.

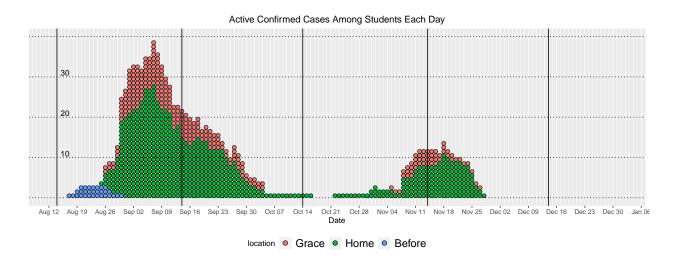

## Cases

### Confirmed Cases Among Students

Students that tested positive before coming are listed in the column Before. These are not counted in our total, since they never set foot on campus.

Table 1: Student Cases

Type	Total	Home	Grace	Before
Active on Sun Nov 28	1	1	0	0
Fall Semester Total	100	71	29	3
Total of Last Two Years	270	196	74	20

## Confirmed Cases Among Employees

Table 2: Employee Cases

Type	Cases
Active on Sun Nov 28	1
Fall Semester Total	12
Total of Last Two Years	65

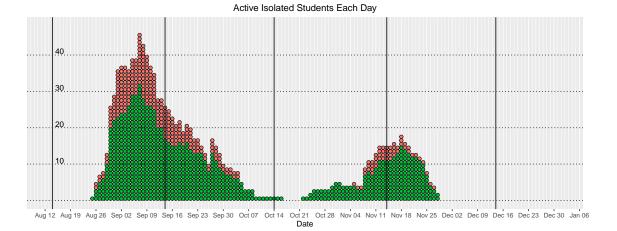

# Isolated

Students are classified as Isolated if they show symptoms or test positive.

#### **Isolated Students**

Table 3: Student Isolations

Type	Total	Home	Grace
Active on Sun Nov 28	2	2	0
Fall Semester Total	124	91	33
Total of Last Two Years	402	298	104
Total Unique Students	373	273	100

location • Grace • Home • Before

## Isolated Employees

Aug 12 Aug 19 Aug 26 Sep 02 Sep 09 Sep 16 Sep 23 Sep 30 Oct 07

Table 4: Employee Isolations

Type	isolated
Active on Sun Nov 28	2
Fall Semester Total	25
Total of Last Two Years	115

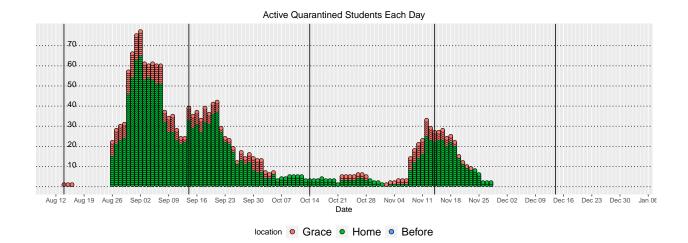

# Quarantined

### Quarantined Students

Students are classified as Quarantine if they are contact-traced to a positive case, but have not shown symptoms or tested positive.

Table 5: Student Quarantines

Type	Total	Home	Grace
Active on Sun Nov 28	2	2	0
Fall Semester Total	239	190	49
Total of Last Two Years	789	632	157
Total Unique Students	665	516	149

### Quarantined Employees

Table 6: Employee Quarantines

Type	quarantine
Active on Sun Nov 28	0
Fall Semester Total	30
Total of Last Two Years	104

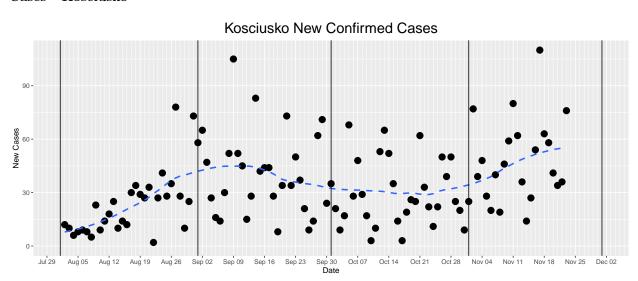

# Kosciusko County

Kosciusko County has had

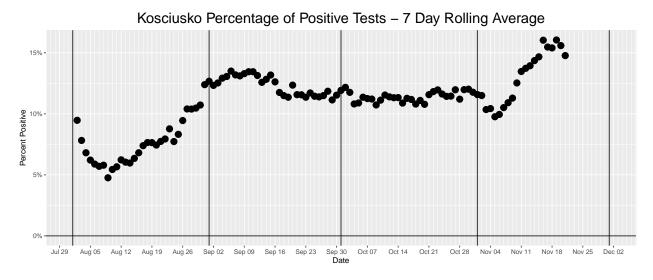

- 60 cases per day the past week.
- 13,763 total confirmed cases.

### Cases - Kosciusko

### Positivity - Kosciusko

Kosciusko County has had 14.77% 7-day positivity rate as of November 21.

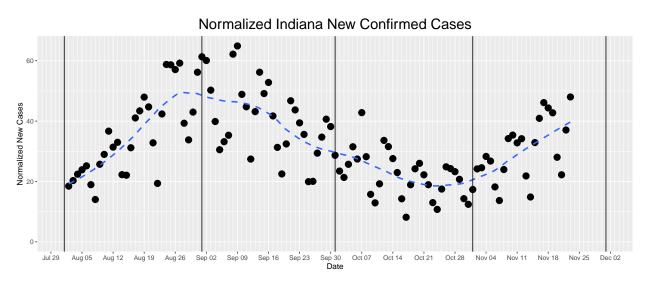

## Indiana

The total case numbers below are multiplied by  $\frac{\text{Kos pop}}{\text{Ind pop}} = \frac{79456}{6732000} = 0.01180273$ , so that it is easier to compare Kosciusko numbers to the average Indiana county.

Indiana has had

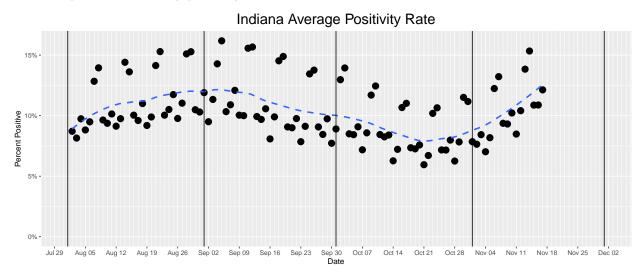

- 3250.4 cases per day the past week (normalized 38.4).
- 1,084,488 total confirmed cases (normalized 12,799.92).

#### Cases - Indiana

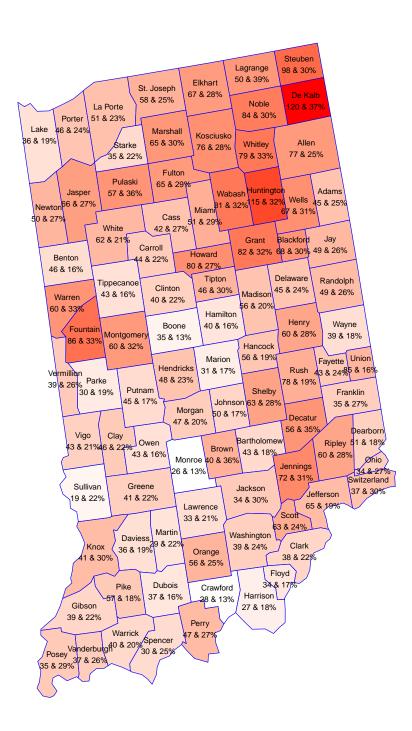

### Positivity - Indiana

Indiana reports a NA% 7-day positivity rate of November 21.

## Indiana Map

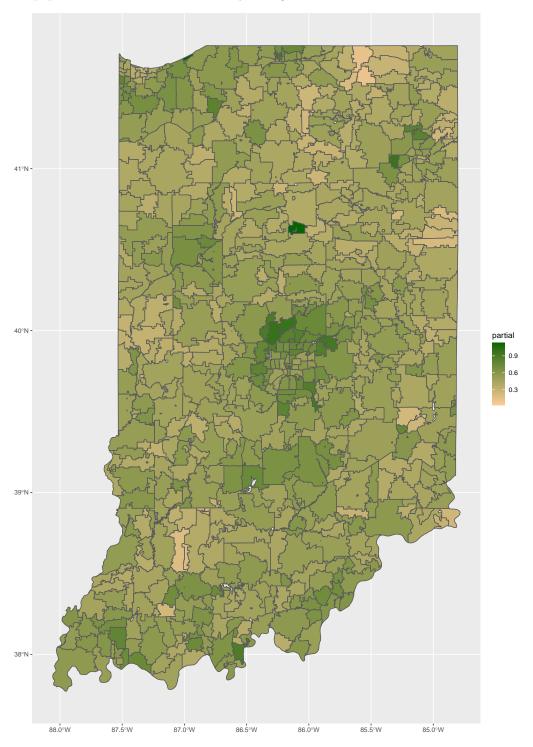

The map below displays the cases per 100,000 per day averaged over the past week and the positivity rate for unique individuals averaged over the previous week. The coloring scheme is relative, it colors the best county white and the worst county red.

# Vaccines

## Statewide vaccine percentages

The following map shows percentages of eligible people who have had at least one vaccine shot. Percentages are based on population census data from 10-11 years ago.

## Regional vaccine percentages

The following map shows percentages of elgible people who have had at least one vaccine shot. Percentages are based on population census data from 10-11 years ago.

The region below extends from Plymouth (46563) in the West to Columbia City (46725) in the East.
